My second crimestopper unit. My first was just a stand alone remote start but upgraded to this unit for the alarm. 6 pin plug was identical to the remote start unit so I didn't have to rewire that plug (I did add the starter kill/anti grind relay). All the other wires are straight forward. Make sure to rear the installation manual.

Crime analysis has become an increasingly important part of policing and crime prevention, and thousands of specialist crime analysts are now employed by police forces worldwide. This is the first book to set out the principles and practice of crime analysis, and is designed to be used both by crime analysts themselves, by those responsible for the training of crime analysts and teaching its principles, and those teaching this subject as part of broader policing and criminal justice courses. The particular focus of this book is on the adoption of a problem solving approach, showing how crime analysis can be used and developed to support a problem oriented policing approach - based on the idea that the police should concentrate on identifying patterns of crime and anticipating crimes rather than just reacting to crimes once they have been committed. In his foreword to this book, Nick Ross, presenter of BBC Crime Watch, argues passionately that crime analysts are 'the new face of policing', and have a crucial part to play in the increasingly sophisticated police response to crime and its approach to crime prevention - 'You are the brains, the expert, the specialist, the boffin.'

Provides basic guidelines to law enforce. (LE) agencies and school admin. as they decide what, if any, security technol. should be considered as they develop safe school strategies. This guide will help schools and LE partners analyze their vulnerability to violence, theft, and vandalism, and suggest technol. to address these problems. Describes commercially avail. technol. and urges consideration of not only the potential safety benefits, but also the costs that schools may incur for capital invest., site mod'., staffing, train., and equip. maint and repair. Topics: security concepts and oper'l. issues, video surveill., weapons detect. devices, entry controls, and duress alarms.
