\*This is the full novel version of WIPE, including Parts 1 through 5\* I've seen the tower from the beach a million times. Way out in the sea, impossible to reach. It rises gray and bare, up and up, and then out of sight. As if the sea gave birth to something meant to connect it to the sky. I've never seen the top. Maze says she's not convinced it has one. And I've always taken its impossible presence for what the Fathers say it is: a relic from before the Wipe. The hubris of pre-Wipe man, and a reminder for us all as to why it is God's Will that we never return to technology. But Maze suddenly has it in her head that the tower means something else, something different than the history the Fathers have given us. I think she's a conspiracy theorist. Until she shows me the map. Just the word mirror scribbled in red ink, next to a marking, and she expects me to go into the Deadlands with her. As long as I've known of her recklessness, and as much of a bad influence as she is on me, I can't say no. Because while she doesn't know they exist, I can't stop my feelings for her. And I start to realize, when we first pass over the rotting gates, into the ruin that was a city, that it will take something much more than either of us ever knew we had in order to survive the truth.

Even before the Civil War, American writers were imagining life after a massive global catastrophe. For many, the blank slate of the American continent was instead a wreckage-strewn wasteland, a new world in ruins. Bringing together epic and lyric poems, fictional tales, travel narratives, and scientific texts, *Postapocalyptic Fantasies in Antebellum American Literature* reveals that US authors who enthusiastically celebrated the myths of primeval wilderness and virgin land also frequently resorted to speculations about the annihilation of civilizations, past and future. By examining such postapocalyptic fantasies, this study recovers an antebellum rhetoric untethered to claims for historical exceptionalism - a patriotic rhetoric that celebrates America while denying the United States a unique position outside of world history. As the scientific field of natural history produced new theories regarding biological extinction, geological transformation, and environmental collapse, American writers responded with wild visions of the ancient past and the distant future.

In this gripping sequel to the post-apocalypse action thriller *HARD WAY HOME*, the answers behind an onslaught of not-so-natural disasters only lead to more questions as a global depopulation conspiracy threatens Americans from right in their own back yard. Retired Army Colonel Thomas Sand returns to the U.S. during its darkest days, only to find the leaders left in government—puppeted by the deep state elite—want him dead. Between the threat assessment algorithm he developed before the apocalypse, and the fact that his wife Becca and stepdaughter Hannah are both brilliant scientists critical to the new world order, his family isn't short on enemies. And despite all his training to the contrary, his only duty now is to them and their safety. Unbeknownst to him, halfway down the coast, his wife is fighting to drag her fevered and battered body home with no means of communication, and only the help of a nameless stranger... Meanwhile, Dr. Hannah Carter, still traveling with the Army veteran who saved her life, discovers she may be the linchpin to destroying the dangerous shadow government that now controls what remains of the fast-crumbling U.S. But to do so, she must leave behind everyone she cares about and face off against the hidden puppet master pulling the strings from his bunker. Unbeknownst to her, Cash Bishop, her fearless companion turned ruthless protector, has followed her into the lion's den, no violence spared. His only light in their new broken world of neverending darkness, finding Hannah is a given. As is taking down the corrupt powers that destroyed his country once and for all... The DEEP STATE DOWN Series - *Hard Way Home* - *Dark Road Back* New York Times bestselling author Christa Wick (writing as Dana Fraser) brings readers another action-packed survival thriller in *Dark Road Back*, the sequel to *Hard Way Home*. Recommended for dark dystopian fans of Jack Hunt, Bobby Adair, LL Akers, and TL Payne. Publisher's Note: This newly-combined 125,000 word story was originally released as two separate standalones,

Home Port (c) 2016 and Fire Wall (c) 2017.

Following a nuclear holocaust, Nathan Taylor and his family face grim choices in order to stay alive. Fleeing deadly radiation, plague and desperate men, Nathan, an army officer, leads his wife and their two teenage sons away from chaos and madness toward his ancestral home in Kentucky. Horrors lie in their path. From the prison struggling to maintain control of its inmates, to the desperadoes who enslave anyone who comes their way, even survival may cost Nathan his humanity...or that of his sons, Joshua and David. Nathan struggles to keep his family intact, but it requires making brutal choices. He wants to protect his sons, but knows they now must be deadly and cold at times. Nathan's home has been spared from the worst of the destruction, but a larger conflict over scarce resources erupts. For the survivors to have any chance they will have to fight and the desperate journey has transformed young Joshua and David into men called upon to lead and sacrifice. Torn between harsh realities, and wanting to hold onto fleeting childhoods, they are often conflicted and angry about the roles thrust upon them. Much will depend on how Nathan and his sons respond to a madman and his military regime seeking to conquer the fledgling community they are helping to build. GLIMMER OF HOPE is an epic tale of one family's endurance and triumph after tomorrow's apocalypse.

The world had fallen. The mostly vacant cities were silent now. For those who had not been turned or consumed, remote locations proved the best chance to live a while longer before the inevitable end landed its teeth marks on their flesh or its disease in their blood. To eat or be eaten was the last imperative of the once noble species. All the accoutrements of being the most civilized of creatures had faded away and the human beast had been returned to the savagery of the primordial forest. This was the truth everywhere in the world, except one place—a small island, forgotten before and after the fall, a place where the sun yet shined down onto hopeful souls, 117 souls, the children of the Eden Project, who lived all their days until now in a great, glass dome. They were the children of light, pure blooded, uninfected, but they all knew (down to the smallest among them) that these hours of eternal incandescence were numbered. They all knew, every moment they breathed, that their destinies awaited them outside the glass, where darkness forever reigned. NIGHT WITHOUT END (Book Two of The Eden Project) now available
