Until the beginning of the eighteenth century, to be 'Italian' meant to identify with a number of collective memories, rather than a national memory. Yet there are elements of continuity that have shaped Italian identity over the past 1,500 years. Religion, food, art and architecture, a literary language, as well as a particular relationship between cities and countryside, between family and civil society have all contributed to present day Italian culture and politics. Baldoli explores the history of Italy as a country, rather than as a nation, in order to trace its fascinating cultural and political development. Offering a way into each period of Italian history, the book brings Italy's past to life with extracts

from poetry, novels and music. Drawing on the latest research published in English and Italian, this is the ideal introduction for all those interested in Italy's cultural and social past and its significance for the country's present.

Contains a bibliographical survey of the chronological and systematic canonical collections in the Latin West from the beginnings of Christianity to Gratian's Decretum (ca. 1140). Dr. Kéry not only has compiled a catalogue of early medieval canonistic manuscripts, but has included valuable information about them. For each collection she has described its type and contents, the time and place of compilation, and, when, possible, its author. Full bibliographies have been provided for each collection, arranged in chronological order. Scholars will find her work particularly useful since she has also noted where scholars have differed and where their opinions may be found. Special attention has been paid to the numerous recensions of the collections. She has given a separate entry for important recensions and has lists of fragments and abbreviated forms of the collections.

Explores the links between tales preserved in Latin from the Middle Ages and "classic" fairy tales from the collections of the Brothers Grimm and Hans Christian Andersen

Read Online Medioevo Superstizioso

This book features the iconographic evolution of the witch over an extensive period of European culture: from the days of Classical Greece to the Romantic age. The study includes some of the most famous images in the history of European art, and focuses on the dual character of the witch in major literary works, as well as archetypal images in painting, sculpture, wood-carving and other artistic means. With a clear, readable and, at times, provocative style, Lorenzo Lorenzi illustrates a fascinating theme, strictly tied to that of magic and mystery, and explores the various cultural aspects which it involves. 32 colour & 40 b/w illustrations

A medio camino entre lo natural y lo sobrenatural, lo científico y el ocultismo, la brujería se relaciona frecuentemente con la energía derivada del Maligno, que se sirve de los hombres y, sobre todo, de las mujeres para lograr sus objetivos en la Tierra. La brujería ha sido un camino para desembarazarse de personajes incómodos y para
