An inspirational story of a man who overcame obstacles and challenges to achieve his dreams. In an accident in 1980, Limbie, a healthy young man, was reduced to a quadriplegic. Read through his fears, sorrow, hope and courage in this heart-open honest book.

A collection of twenty-one traditional tales from the British Isles.

Thielicke here studies the themes of doubt and appropriation in modern Protestant thought. A leading advocate of dialectical theology, Thielicke examines the work of the great German Protestant religious philosophers from Lessing and Schliermacher through Barth and Tillich, probing these theologians' understanding of their context and how this tradition can impact our own engagement with our times. Clear, finely nuanced, historically and philosophically mature, this is a vital reflection on the history of theology and in systematic theology.

He's a down-on-his-luck janitor with aspirations of writing the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life. Normally, these two would never meet, but a higher power has different plans for both of them. The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the box office in October.

"Park and Cromie: International Commercial Litigation focuses on national commercial litigation in its international context. England and Wales, USA, France, Germany, Switzerland, Japan, Australia and Canada are all covered, with the book being structured in such a way that the procedural and substantive law of each country is covered in equal depth. A team of international contributors analyses the factors which must be taken into consideration in choosing the forum and how to proceed after that choice has been made. The conduct of simultaneous proceedings in the various countries and how decisions may be enforced in the light of relevant bilateral and multilateral conventions (in particular the Brussels, Lugano and Hague Conventions) are also covered."

"With this first masterpiece of Western military history forming the backbone of his book, Robin Waterfield explores what remains unsaid and assumed in Xenophon's account - much about the gruesome nature of ancient battle and logistics, the lives of Greek and Persian soldiers, and questions of historical, political, and personal context, motivation, and conflicting agendas. The result is a rounded version of the story of Cyrus's ill-fated march and the Greeks' perilous retreat - a nuanced and dramatic perspective on a critical moment in history that may tell us as much about our present-day adventures in the Middle East, site of Cyrus's debacle and the last act of the Golden Age, as it does about the great powers of antiquity in a volatile period of transition."--BOOK JACKET.

It is an all-encompassing encyclopedia which covers all aspects of the book-- from specific biographies of publishers, book designers, printers, etc.-- and histories of the book's development from all angles.

An analysis of the way postmodern novels respond to changes in the experience of time.
