be available in the ebook version.

This IBM® Redbooks® publication presents a general introduction to the latest (current) IBM tape and
tape library technologies. Featured tape technologies include the IBM LTO Ultrium and Enterprise 3592
tape drives, and their implementation in IBM tape libraries. This 17th edition includes information about
the latest TS4300 Ultrium tape library, TS1155 Enterprise tape drive, and the IBM Linear Tape-Open
(LTO) Ultrium 8 tape drive, along with technical information about each IBM tape product for open
systems. It includes generalized sections about Small Computer System Interface (SCSI) and Fibre
Channel connections, and multipath architecture configurations. This book also covers tools and
techniques for library management. It is intended for anyone who wants to understand more about IBM
tape products and their implementation. It is suitable for IBM clients, IBM Business Partners, IBM
specialist sales representatives, and technical specialists. If you do not have a background in computer
tape storage products, you might need to read other sources of information. In the interest of being
concise, topics that are generally understood are not covered in detail.

Singapore's leading tech magazine gives its readers the power to decide with its informative articles and
in-depth reviews.
