All About Electronic Percussion is a beginner's guide to this exciting new world. The book explains the fundamentals and benefits of electronic percussion, and presents introductions to drum pads and triggers, percussion sound modules, and much more. Helpful "how-to" sections guide the newcomer through the process of setting up systems, and explains the MIDI technology the electronic percussionist needs to know.

This book constitutes the thoroughly refereed post-proceedings of the International Workshop on Gesture and Sign Languages in Human-Computer Interaction, GW 2001, held in London, UK, in April 2001. The 25 revised full papers and 8 short papers were carefully reviewed and selected for inclusion in the post-proceedings. The papers are organized in topical sections on gesture recognition, recognition of sign languages, nature and notations of sign languages, gesture and sign language synthesis, gestural action and interaction, and applications based on gesture control.

Get high. Become addicted. Commit crimes. Get arrested and be sent to jail. Get released. Repeat. It 's a cycle often destined to persist, in large part because the critical step that is often missing in the process, which is treatment geared toward ensuring that addicts are able to reenter society without the constant threat of imminent relapse. The Handbook of Evidence-Based Substance Abuse Treatment in Criminal Justice Setting probes the efficacy of corrections-based drug interventions, particularly behavioral treatment. With straightforward interpretation of data that reveals what works, what doesn ' t, and what needs further study, this volume navigates readers through the criminal justice system, the history of drug treatment for offenders, and the practical problems of program design and implementation. Probation and parole issues as well as concerns specific to special populations such as women, juvenile offenders, and inmates living with HIV/AIDS are also examined in detail. The Handbook 's wide-ranging coverage includes: Biology and genetics of the addicted brain. Case management for substance-abusing offenders. Integrated treatment for drug abuse and mental illness. Evidence-based responses to impaired driving. Monitoring technology and alternatives to incarceration. The use of pharmacotherapy in rehabilitation. This must-have reference work is a comprehensive and timely resource for clinicians, researchers, and graduate students across a variety of disciplines including clinical psychology, criminology and criminal justice, counseling, and educational policy makers.
